Typical Computer Classroom

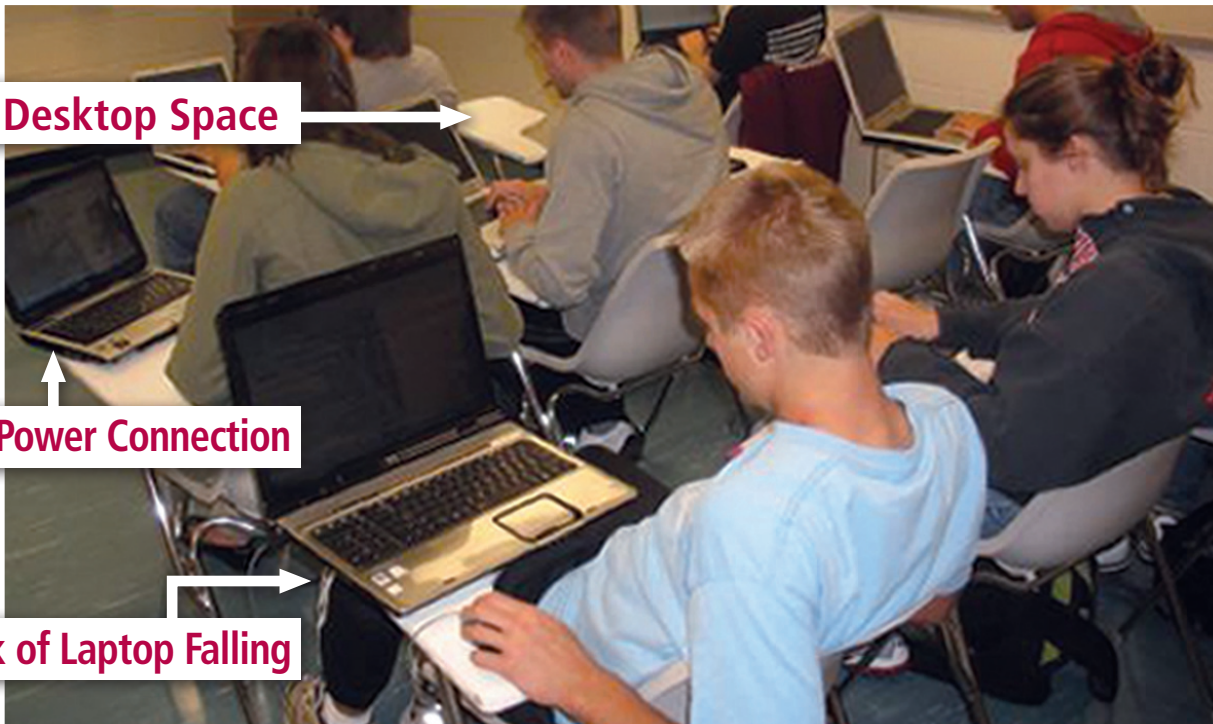

Blocked Sightline

Cable Clutter

Single-Use Desk

Typical Laptop Classroom

No Desktop Space

No Power Connection

Risk of Laptop Falling

ISE Line-of-Sight Classroom

ISE Laptop Learning Classroom

From a Standard Desk to a Computer Desk, and then back again, in seconds!

Line-of-Sight Desk

Press a button at the desk, or on a remote control handset, and an electric-powered lift automatically raises or lowers the computer screen.

With the LCD monitor or laptop computer stored completely under the desktop, the Line-of-Sight Desk or Laptop Learning Desk becomes a standard desk with plenty of work area.

Laptop Learning Desk

Press a button at the desk, or on a remote control handset, and an electric-powered lift automatically delivers the laptop computer to the desktop, connected and ready-to-use.

ISE products are only available through contract furniture dealers
